

Multiplication Top-It

You need:

- Deck of playing cards (Aces are 1, Kings are 0 – remove Queens and Jacks)
- 2 players

How to play:

The goal is to capture your opponent's cards.

- Deal out the cards so each player gets half the deck.
- Each player lays down 2 cards and figures out the product of their cards.
- The player with the largest product gets both cards.
- If both players cards have the same product, each player lays down 2 more cards. The winner of the second set of cards gets all 8 cards.
- You can play for a set amount of time then count the cards or you can play until one player has all of the cards.
